

Volunteer for London Rivers Week

@

Woodcock Park

- Join Thames21 to help improve your local water course and surrounding environment as part of London Rivers week undertaking practical river improvement solutions for the Wealdstone Brook. The practical solutions will involve litter picking the surrounding environment and accessible in-channel areas.
- Calling photographers, artists, beginners, experienced, and all those with interest, we would like the event and surrounding environment captured through pictures and drawings. Please make contact with the event leader Luke Damerum for further information.(own equipment needed)
- As a highlight a chance to carry out water quality testing will be conducted at the end of the event.
